**EYEING PRESIDENCY?** New York Gov. Nelson Rockefeller may appear to be looking up to the Republican nomination for president but actually is gazing upward at the request of a photographer after blistering Vice President Nixon's pre-convention policies and virtually inviting a draft by the GOP. Rockefeller condemned Nixon's tactics after a meeting with New York GOP leaders. Earlier, he had breakfasted with President Eisenhower. (UPI Telephoto)

## Rockefeller Assails Nixon, Administration's Policies

NEW YORK (AP)—New York Gov. Nelson A. Rockefeller has challenged Vice President Richard M. Nixon to declare himself now on vital issues, not after the GOP national convention. The governor also assailed numerous administration policies.

"In a move that caught political friends and foes by complete surprise, the draft-available Rockefeller said Wednesday in a statement:

"I find it unreasonable in these times that the leading Republican candidate for the presidential nomination has firmly insisted upon making known his program and his policies not before, but only after, nomination by his party."

Neither the nation nor the GOP, Rockefeller said, can march into the future holding a banner "whose only emblem is a question mark."

Nixon and Rockefeller may meet face to face Friday. Both are scheduled to appear at a luncheon honoring Prince Philip of Britain.

"Rockefeller apparently briefed President Eisenhower at a breakfast conference at the White House before flying here and releasing his 2,700-word statement. The statement contained only praise for the President, but noted that his service was ending."

Rockefeller criticized the administration's handling of defense, education, medical and labor-management programs, and urged a reorganization of the whole government structure especially in view of the U2 spy plane incident.

There was no comment from Eisenhower or Nixon. Nixon conferred privately with the President Wednesday afternoon following a meeting of the National Security Council.

Rockefeller also announced he would head the New York state delegation to the GOP convention in Chicago.

The governor never mentioned Nixon by name. But he took direct aim at one of the vice president's major campaign topics — his role in settling the 1959 steel strike. Rockefeller termed the settlement a surrender to the forces of inflation.

In urging new approaches to foreign policy, Rockefeller said: "Our position in the world is dramatically weaker today than 15 years ago."

One month before the Geneva Disarmament Conference, Rockefeller declared, the United States had no prepared position. "The machinery of free government can and must be geared to do better than this," he added.

Opinions differed widely among Republicans as to the eventual effect on Rockefeller's political future.

But Thurston B. Morton, Republican national chairman, said, while he had not read the governor's statement, he would not object to a contest for the GOP nomination. "If there is one," Morton said, "I'll see to it that the convention is run as fairly as possible."

**2 Ohio Republicans Criticize Rockefeller**

WASHINGTON (AP)—Two Ohio Republican congressmen have voiced criticism of Gov. Nelson Rockefeller's criticism of Vice President Richard M. Nixon Wednesday.

At a party held by Ohio Republican Chairman Ray Bliss Wednesday night, Rep. William Hess told newsmen if Rockefeller ever became the Republican nominee for president he would prefer to vote for Senate Majority Leader Lyndon B. Johnson (D-Tex.).

Rep. Frank Bow said Rockefeller's demand that Nixon speak out on issues could not do either Nixon or Rockefeller any good.

Both congressmen said, "You can't kick everybody in the teeth."

Bliss held the party for the Ohio GOP delegation in Congress and some Ohio GOP candidates for House seats.

## \$40 Billion Defense Bill Okay Seen

2 Senators Expect Appropriations Unit Approval Friday

WASHINGTON (AP)—Two senators who helped prepare a \$40-166,097,000 defense money bill predicted today the Senate Appropriations Committee will approve it Friday without major changes.

That forecast came from Chairman Dennis Chavez (D-NM) and Sen. Leverett Saltonstall (R-Mass.), a member of the Appropriations subcommittee. That group added 828 million dollars to the amount previously voted by the House.

Senate action on the bill is likely early next week, Chavez said. The total reached in two days of voting by the Chavez subcommittee is 950 million dollars more than President Eisenhower's revised budget requested, but it added to the House bill a number of items originally asked by the administration and cut out by the House.

Saltonstall and other Navy-minded senators were happy about restoration of 293 million dollars to build another large attack aircraft carrier. The House deleted these funds.

At the same time the Senate group accepted 241 million added by the House to speed up construction of Polaris ballistic missile submarines and approved 42 million of a 100 million House increase to step up research and development for the Navy's anti-submarine warfare.

Biggest increase was restoration of 400 million the House had slashed by an across-the-board 3 per cent reduction in funds for procurement of missiles, aircraft and other military hardware.

The Senate group also restored 294 million the House had denied for production of anti-aircraft Bore missiles. And it added 75 million to this to complete two Pacific Northwest bases for the missiles.

It also added 285 million for the B70 jet supersonic bomber program. Sponsors said this should permit development of a complete weapons system for these high flying, 2,000-mile-an-hour aircraft. The administration had cut back this program to provide only for two prototype flying craft.

## Hearing In Assault Case Slated Friday

Preliminary hearing for William H. Thomas, 1010 Anderson Ave., Wellsville, will be held Friday at 1 p. m. in County Judge James L. MacDonald's court at Lisbon.

Thomas was cited for unlawful assault with intent to rape after police said he hid behind hedges at 16th and Commerce Sts., Wellsville, Friday night and grabbed a Nevada St. woman, beating her and dragging her to his parked car nearby. She finally broke away and residents, hearing her screams, called police.

Thomas is free on \$500 bond set Monday by Judge MacDonald.

## House Un-American Unit Cited On U.S.-Wide Show

WASHINGTON (AP)—The House Committee on Un-American Activities put on a coast-to-coast roadshow presenting the same star witness in the same act at each stop from 1956 to 1959, the Knight Newspapers said today.

The copyright story, final in a series on spending by Congress members and committees, says the hearings accounted for some of the spending by the un-American activities group in those years. It points out that the committee has the fourth largest investigative fund in the House this year—\$327,000.

The authors, Don Oberdorfer and Walter Pincus, wrote about testimony by Irving Fishman, deputy collector of customs at the Port of New York, reporting that he was paid \$9 per diem plus expenses for 10 separate appearances at hearings in the years covered by the story.

Fishman is in charge of interception of mail from abroad which the government believes is pornographic or is political propaganda.

In the hearings described in the story, a major feature of his appearance consisted of breaking the seals on mail bags from

## 4 Injured In 2 County Roads Auto Mishaps

Canton Persons Also Hurt In Accident In Guilford Lake Area

A Lisbon woman and a Lisbon district girl were among four county residents hurt in two traffic accidents Wednesday, according to the State Highway Patrol at Lisbon, which reported some Canton people injured in a one-car crash near Guilford Lake this morning.

The patrol said a car driven by Linda Lou Kenmuir, 18, of Lisbon R. D. 5, headed south about a half mile north of Lisbon, hit the rear of an auto operated by Lillie Lewton, 58, of 292 W. High St., who had halted on the roadway. The crash occurred about 7:30.

The Lisbon woman apparently was halted in order to back into a driveway, officers said. Marie Kuhns, passenger in her car, suffered bruises of the back, and the younger girl, passenger in the other auto, received a head injury.

Lillie Lewton was charged with obstructing traffic and the Kenmuir girl was charged with failure to stop in hit assured clear distance.

Thomas is free on \$500 bond set Monday by Judge MacDonald.

## Swiss Doctor To See Ailing City Youngster

A trans-Atlantic phone call Wednesday night with the famed Dr. Paul Neihans of Switzerland paved the way for an appointment for a 9-year-old city girl suffering from a central nervous system disorder.

Thomas McElroy, 414 College St. spoke with the neurosurgeon, who specializes in use of injections of live tissues, and made an appointment for his daughter, Deborah, for next Thursday.

McElroy, a Crucible Steel Co. employee, said the physician at first discouraged his flight to Europe with the girl, but became more interested when told diagnostic reports were available from Johns Hopkins Hospital at Baltimore.

Dr. Neihans told McElroy to bring the reports, said he would "be looking for you on the 16th," and advised him to "have a happy journey."

McElroy, who went to Lisbon Wednesday to process his passport, said he plans to make arrangements today to get the brain biopsy and other reports from the Baltimore hospital. His plane reservations are for Wednesday and he expects to arrive at Geneva with his daughter on the following day.

Deborah, afflicted with the disease about 18 months ago, is now almost blind. Use of live cells to replace the dead tissues, called by Dr. Neihans "cellular therapy," may arrest the disease and bring improvement, the family hopes.

Dr. Neihans is at Claren Montreux near Geneva.

## Cuba's Castro Levels New Attack At U.S.

HAVANA (AP)—Fidel Castro declared today the United States poses a greater threat to Cuba than earthquakes did to Chile.

The Cuban Prime Minister lashed out anew against his No. 1 target in a post-midnight dockside speech sending off a boatload of relief supplies to Chile's quake victims.

Castro led off by terming the atomic bombings of Hiroshima and Nagasaki "assassination" and "cold blooded aggression against the civilian population." Then he said Cuba faced worse evils than the Chilean earthquake — "great international interests who, in their egoism and blindness, didn't vacillate in hurling those atomic bombs over two cities, assassinating hundreds and hundreds of women, children and aged men."

## Grading Set At Site Of New Chester Pool

Approval Of Levy Clears Way To Start Project In 3 Weeks

Start of grading for Chester's new City Park swimming pool will begin within 3 weeks, but the pool will probably not be ready until 1961, it was announced at a meeting of the Park Commission and pool committee Wednesday night.

Howard Graham, member of the pool committee, said because of the number of bids expected and other details, it is doubtful if the pool can be utilized until Memorial Day 1961.

The committee, headed by Don Chaney, conferred with the commission concerning the site of the pool and other details.

A 2-mill levy for 10 years, to provide funds for the pool to cost some \$70,000, was approved by voters in the city election Tuesday.

Chaney said residents of Newell and elsewhere in Grant District have asked about contributing to the project, and he said any funds would be accepted.

He said money will be needed for work connected with the pool but not included in the levy proceeds. Use of the pool will be restricted to residents of Chester, Newell and Grant District.

Harold Dickey, chairman of the Park Commission, said a list of needs for the community building at the park is now complete, and organizations and clubs may select any for a project.

## Murder Charge Faces Woman From Leetonia

SALEM — A preliminary hearing is slated Tuesday at Youngstown for Hazel Stice, 41, of Leetonia, being held on a charge of second degree murder in connection with the fatal shooting of a steelworker at a Youngstown hotel Monday night.

Bond has been set at \$2,000. She is charged with the death of William Swesey, 41, of Youngstown at the New Vanier Hotel where they were registered. She claimed Swesey beat her before the incident.

## House Puts Approval On Legislation

Measure Calls For \$8 Billion Boost In National Debt

WASHINGTON (AP) — A routing Senate tax fight appeared in prospect today over a bill to extend for another year levies which bring in four billion dollars of annual revenue.

The measure, passed by the House Wednesday, also provides an eight billion dollar temporary increase in the national debt ceiling for the year ahead. This year's temporary 10 billion dollar increase expires June 30.

Several senators have announced plans to try to use the House bill as a vehicle for major tax changes, both to cut some revenues and also to pick up some.

Chairman Harry F. Byrd (D-Va.) said his finance committee would meet soon on the legislation, but no date has been fixed. He plans to try to get the bill acted on there without public hearings.

Byrd is expected to seek to get the bill through without change, in line with Eisenhower's recommendations. But several other committee members are ready with amendments.

Under Senate rules, the bill will be wide open to amendment. The House considered the measure Wednesday under a rule barring any floor changes, but the members nevertheless showed considerable dissatisfaction with it by their votes.

The House agreed only by a 202-181 tally even to take up the bill, and passed it 222-174.

Many legislators said their "no" votes reflected a feeling that Congress this year should remove the 10 per cent federal tax on local telephone service and cut in half the 10 per cent passenger tax affecting train, bus and plane riders.

The Senate last year voted to kill both of these levies effective immediately.

## Brick Plant's Project Begins

New Mine Planned At Wellsville Unit

H. K. Porter Co. Inc., today announced the start of a \$4 million construction and equipment modernization program at the Wellsville and Bessemer, (Ala.) plants of its refractories division.

At Wellsville, approximately \$1½ million is being spent at the McLain Works. This includes two new tunnel kilns, additional dryers, and new machinery and equipment.

Expansion and modernization of the plant will provide additional ladle brick production capacity and will enable Porter to give the steel industry in the area faster delivery of uniform, high quality ladle brick, the firm said.

An estimated \$455,000 at Wellsville will be invested in a new mechanized clay mine. It will utilize the latest in mining and material handling techniques.

The new mine will include a crusher elevator, conveyors, bins and structures. The mine will provide a central source of high quality clay for the McLain group of plants in the area.

The other portion of the \$4 million program will be used to construct a new tunnel kiln at Bessemer. Construction of buildings will begin this month.

The modernization and expansion steps, C. L. Holbert, Porter president said, are geared to meet modern steelmaking practices and will increase the division's refractory brick production, provide new products and improve product quality through more accurate quality control and better manufacturing techniques.

## U.N. May Get Complaint

## Israel Expected To Reject Argentine Bid For Ex-Nazi

BUENOS AIRES, Argentina (AP)—Israel appears certain to reject a demand from the Argentine government for the return of Adolf Eichmann, the former Nazi official captured in Buenos Aires by Jewish agents and whisked away to face charges of mass murder of Jews during World War II.

Argentina in a note to the Israeli government Wednesday night charged the seizure violated its national territory and warned that it would complain to the United Nations unless the 54-year-old ex-Storm Trooper is handed back this week.

"Once the indicated restitution (of Eichmann to Argentina) is accomplished," the Argentine note said, "the Israeli government's way is open to request his delivery through means contemplated by international law."

The Argentine ambassador to Israel, Rodolfo Garcia Arias, was called home, and there was a possibility that Israel's ambassador to Buenos Aires, Areli Levavi, would be asked to leave Argentina. But it was not expected that Argentina would go so far as to break off diplomatic relations with Israel, at least for the time being.

Argentina also demanded punishment of the band of Jewish "volunteers" the Israeli government said had tracked Eichmann down after a 15-year manhunt and spirited him to Israel.

An Argentine protest to Israel had been expected, but its terms were considerably stronger than had been anticipated. However, there appeared no possibility that

Israel would comply with the demand for Eichmann's return or for punishment of those who captured him.

Israeli Prime Minister David Ben-Gurion already has taken an adamant stand against suggestion that Eichmann be tried by an international court instead of by an Israeli tribunal. Ben-Gurion also has praised the "unbounded devotion" of the agents who captured him.

## Rossi To Ask Recount In Chester Council Bid

Dino Rossi, Chester Republican candidate for First Ward Council in Tuesday's city election, today said he plans to ask a recount of votes in the ward where he lost by one vote to incumbent Charles Kology, Democrat.

Kology edged Rossi 130 to 129, according to unofficial returns. Council will meet tonight at 8:30 in special session to canvass the ballots.

## Recall Of Grand Jury Slated For June 20

Prosecutor G. William Brokaw said he will recall the April Grand Jury June 20 at 9 a. m. at Lisbon to act on an accumulation of cases since its original session. Some 12 cases have piled up and more are expected within the next week.

Ordinarily, the next Grand Jury would be convened in September. Anthony Breligh of Salem is the foreman.

## Southern Boy Wins National Spelling Bee

WASHINGTON (AP)—Henry Feldman, 13, Oak Ridge, Tenn., won the 1960 National Spelling Bee today. He had tried twice before.

Runner-up was Betty Jean Altschul, 12, Norfolk, Va.

Henry clinched the title by the correct spelling of the word "eudemonic". The word means producing happiness.

Before that Henry had correctly spelled "vellety". Betty Jean missed that one by spelling it "velete". That word means the lowest degree of desire, mere willingness.

Under the rules, the winner must spell correctly the word his opponent misses then spell one more word correctly. This Henry did after the two finalists had both slipped up on several words.

The new champion finished 20th last year. He was also in the national contest in 1958.

Three contestants fell victim to increasingly difficult words in today's first round as the 33rd annual spelling bee resumed.

## Rocket Plane Explodes But Pilot's Uninjured

EDWARDS AIR FORCE BASE, Calif. (AP)—An X15 rocket plane exploded Wednesday night as its pilot made a ground test of the powerful engine expected to take the research craft to speed and altitude records.

Test pilot Scott Crossfield, at the controls, was unhurt.

The plane was extensively damaged. Its builder, North American Aviation, said the explosion will delay the X15 program "two or three months."

## Nightmare Haunts Whites

## Fear, Rumor, Confusion Grip Rich Belgian Congo

Saul Pett, AP staff writer, is on tour of Central America, reporting about the nations which are getting their independence or pushing for freedom from colonial ties. This dispatch tells of the critical situation in the Belgian Congo.

By SAUL PETT

LEOPOLDVILLE, Belgian Congo (AP)—As a colony, the big rich Belgian Congo is dying in a convulsion of fear, rumor and confusion.

One nightmare haunts the white community.

They think that many of the most primitive natives expect to take over the white man's world completely and literally on Independence Day, June 30. Take over, not only his government, but also his home, his car, even his wife.

There have been incidents but for every actual incident, 100 are imagined. True, false or medium, the result is the same in this country, where black men outnumber whites 130-1. The Belgians are scared.

They have been flying out by the thousands. Airlines are jammed. In rural areas, many

plantation owners, copper mining officials, missionaries and trading post managers are planning to send their wives and children to towns for protection.

In the cities, many white homes now have guns. Business is dead. Few consumers and retailers are buying more than they absolutely need.

The white community (normally about 100,000 compared to 13 million Africans) waits tensely and the rumors multiply. Is there any substance to the reports? Apparently there is, according to missionaries, Belgian officials and people I talked with at the American and British consulates.

While there has been much semi-hysterical exaggeration, they said, this kind of thing has occurred:

African men (no one can say how many) have approached white women and said, in effect, they were taking title to them after June 30.

Natives in a northern village have laid out many empty boxes, crates, tubs at a cemetery, thinking that with independence they will be filled with the white man's clothes, food, goods. Somehow, they associate the dead with the coming miracle.

A man coming out of a barber shop in Leopoldville saw several natives eying his car possessively. Why? "It will be ours after June 30," said the owner. "I suppose you think you'll get my house too?" Said the natives: "oh yes sir."

There are many rumors of African blacklists: After June 30, the bad whites will have to go, only the good ones can remain.

Trying to nail this last type of rumor down is like trying to nail gelatine to the wall. But true or not, many Belgians now treat their houseboys more carefully.

Many people don't know what to believe. This much is fact.

Some of the lesser African politicians, or jungle precinct captains, have led their primitive constituents to believe they will take over the white man's possessions June 30. The top African leaders have tried to spike these notions, but it's doubtful if the speeches can catch up with the rumors among wishful thinking natives in the remote villages unreached by radio or newspapers.

This uncertainty is the harvest of haste as the Congo, one third the size of the United States, races toward freedom from Belgium.

## Deaths And Funerals

## Hearing Opens For Man In Club Paddock Case

A hearing opened today before Judge J. Harold Brennan in Hancock County Circuit Court at New Cumberland for Arthur Lewis of Weirton, indicted by the recalled Grand Jury Friday on three counts of beer and liquor violations. His appearance Wednesday was continued to today.

Lewis, cited by West Virginia State Police in April at the Club Paddock on State Route 30 near Chester, was named in three indictments of selling alcohol, possession of alcohol without authority of the state and selling beer without a license.

Judge Brennan expected to hold Circuit Court hearings only briefly today, according to Court Clerk Lou H. Hill.

## Nominees Warned Expense Reports Are Mandatory

Candidates who won nomination in the May 3 primaries were warned today by the County Election Board they cannot qualify for a place on the ballot for the November general election unless they file the required sworn statements on their campaign expenditures in connection with the primaries.

Law forbids issuance of a certificate of nomination to persons who do not file the reports by the deadline Friday, June 17, at 4 p. m., according to Frank R. O'Hanlon, Election Board clerk. In addition any office-seeker—whether or not he was successful—will be barred by state law from being a candidate again for 5 years if he fails to file the report, O'Hanlon pointed out.

Several nominees—both Republicans and Democrats—are included in the group which has not filed the reports, although the deadline is a little over a week away, O'Hanlon commented.

## Red Germany Releases U.S. Glider Pilot

LUEBECK, Germany (AP)—American glider pilot Richard E. Schreder, who got lost on a championship flight Wednesday and landed in East Germany, was allowed to leave Communist territory with his glider today.

The 44-year-old flier, from Toledo, Ohio, was met here at the border crossing into West Germany by his wife, Angie.

She had not been allowed by Communist authorities to accompany his trailer crew which had driven across the Iron Curtain border a few hours before to retrieve the sailplane and its pilot.

Schreder's return to West Germany took less than 24 hours, usually it takes several days for sport and glider pilots to arrange their exit when they accidentally cross into East Germany.

The all-metal glider landed Schreder 30 miles inside the East German border near Kluetz, not far from where an Air Force plane carrying nine persons was forced down by Soviet fighters just two weeks ago.

That group had also been released, together with their plane, with unusual ease and speed. They were held only four days compared to similar groups being detained in recent years as long as seven weeks.

The East German Communists said that Schreder's "allegations" were checked before he was released.

This was not immediately explained. Presumably the Communists simply meant they checked out the glider pilot's story of getting lost and landing by mistake.

The East German border police had allowed the three glider crewmen to drive into East Germany and pick up Schreder and his plane.

## Treadwell And Union Discussion Seen Futile

No real progress was made at a meeting of representatives of the Midland Treadwell Co., the United Steelworkers Union and Federal Mediation and Conciliation Service personnel Wednesday at Beaver.

Commissioner Arthur C. Wellman of the service at Pittsburgh said that no real progress was made toward a settlement of a new contract and the strike of some 70 men since Jan. 26.

He said no future meetings have been set but they are subject to his call or at the request of either party. Employees, who are members of Local 1274, have refused to work without a new contract. The company has refused a contract since it considers wage requests too high.

## 60 Units Will Parade At Salineville Friday

Prizes will be awarded for the units traveling the farthest, the best equipped, the oldest truck, the best marching unit, best band, most comic outfit and unit with the biggest pumper.

The parade is a highlight of the current carnival which will continue through Saturday. The parade will form at the railroad station and march to the athletic field.

## Rocket Bases Strike Moves Into 4th Day

SAN DIEGO, Calif. (AP)—An increasingly bitter union strike for higher pay tied up five key U. S. defense installations for the fourth day in a row today.

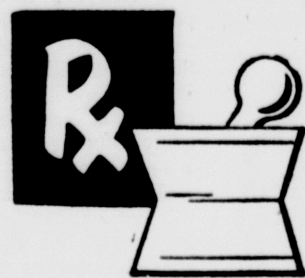

Convair, builder of the nation's only war-ready long range missile, and the International Assn. of Machinists locked in massive struggle.

Still working were Convair's big plane and missile plants here. The union hit instead at bases where Convair Atlas missiles, capable of hauling nuclear warheads thousands of miles, play a prime role in the nation's defense.

The company countered with lawsuits, suspensions and cancellation of several union-benefitting clauses in the expired contract.

A threat of new walkouts in the troubled aviation-missile industry looms. The IAM said it broke off talks Wednesday with the Lockheed Aircraft Corp. missiles and space division at Burbank, Calif. Union officials expect a strike vote at a membership meeting Saturday.

And IAM members at Douglas Aircraft in Santa Monica, Calif., are considering a strike in mass meetings. The United Auto Workers has set a June 15 strike deadline with Douglas in Long Beach.

## Thoughts On The California Primary

Tuesday's voting in California offers a clue to why professional politicians are apt to scoff at the significance of state primaries in the national picture.

It indicated some indications, none of them conclusive. Mostly it seemed to confirm what observers have been saying for a long time—that a strong trait of hodgepodge runs through California politics.

Vice President Nixon made a good showing by polling more votes than Democratic Gov. Brown. He was helped in this by the efforts of a challenger to Mr. Brown, who cut deeply into the governor's personal vote as favorite son candidate for the Democratic presidential nomination.

**BUT MR. NIXON'S** achievement should not be discounted in a state generally conceded to have a Democratic majority of 3-2 among the voters. The margin of the total Democratic vote over the total Republican vote was not that large, giving GOP leaders good ground for predicting that the "sleepers" could provide the steam for a Republican victory in the state in November.

Undoubtedly the second most interesting facet of the vote was the dissenting campaign of George McLain against Gov. Brown. Mr. McLain is the successor to the late Dr. Townsend of Townsend Club fame. He therefore is the chief lobbyist and spokesman for the multitude of retired people who have migrated to California.

His success in polling 30 per cent of the

Democratic vote from the governor is not likely to give aid and comfort to either the Democratic party or the Republican party. It represents the power of a pressure group now largely identified as such only in California but destined to become more widespread in the future.

As the population of the United States ages, the problems of the elderly are going to be more acutely evident. This is a natural thing and in no way reprehensible. It points up, in fact, the importance of devoting more attention to those problems.

But Mr. McLain and his followers in California emphasized in Tuesday's voting that the attention is going to be more and more political rather than social, economic or humanitarian.

**THIS HAS BEEN** manifested already in the wrangling within and between the two major political parties over the problem of adequate medical care for the aged on fixed incomes. It is a problem that needs a sound solution, but the more it becomes involved in the vagaries of politics, the less likely a really sound solution will be found.

Stated another way, it may mean that the traditional conservatism of the elderly, growing out of their maturity, may be upset by the political liberals who claim to be the only ones interested in their well-being. And youth, seeking to defend itself politically, may have to turn away from its traditional role of liberalism to put a check on its elders.

## Ike Looks Back For The Future

The President of the United States chooses his unofficial public appearances carefully, and when he agrees to deliver a commencement address it is because he has something he wants especially to say.

President Eisenhower's address to 7,000 graduating students at the University of Notre Dame was more than just the usual commencement speech. It bore all the marks of a retrospective look at the most turbulent years of his long public career.

Phrase after phrase and successive words of advice in the address recalled problems and disappointments and battles he has faced in almost eight years in the White House.

He cited "the relentless timetable which we must race to keep events from overwhelming us."

He cited the challenges of the "enemies of human dignity lurking in governments that have become spiritual wastelands."

He cited the need for constantly renewed dedication to the spirit of America to keep the United States from becoming a spiritual

wasteland, to prevent indifference from supplanting moral and political responsibility.

He urged young people to make careers in politics and governments to help achieve that end.

He cited the problems that confront the executive who tries to bring successful and experienced men to deal with the problems of government.

He urged men outside of government and politics to help solve these problems by planning their careers in advance to allow for dedication of some of their time and energy and experience to government.

"The true source of the nation's vitality is found in the private sector of American life," he said, showing that his own career as soldier and president has not distorted his understanding of the importance of the private citizen in keeping America great.

These were not platitudes designed to return the favor of an honorary degree. They represented the voice of experience counseling the new generation.

## The Show Will Go On

Despite the gloomy reports arising from dark threats in the push and pull of the contract negotiations between actors and producers, the chances are that Broadway soon will return to its status as the Great White Way.

Ever since the world began to have people, they have felt the need to escape from it once in awhile, if only temporarily and imaginatively. Thus the theater, in one form or another, has been around for longer than anyone can remember.

Those who use it as an escape are not confined to the seats beyond the lights. They comprise the vast majority of those on stage and behind the scenery.

Virtually every wearer of grease paint and costume concedes it is "in my blood." Even in this age of security through good wages and extensive pension plans, most actors declare they do not know how to do anything else and would not want to do it if they knew how. All of the real life of the theater is an escape they cannot do without.

This applies to almost as great a degree to the man whose primary connection with the stage is their financial ability to indulge in keeping it going. That is why they put their money into what has become increasingly a losing proposition. They would rather lose their money in the adventure of the

theater than expand it in safer investments.

The longer the theaters are kept dark by the strike, the more passionately the actors, the producers and the audiences will want to lose themselves in the land of make-believe when the lights come on again.

The show must go on because nobody involved can imagine living without it.

## Real 'Wheels'

Last night's testimonial dinner at East Palestine for David Simpson, winner of the boys division of the Ohio Road-E-O competition, and Carol Anne Dyke, second-place winner in the girls division, points up some real driving skill in the northeastern part of the county.

Since 1954 a number of East Palestine young people have reached the No. 1 slot in the annual state contest, including Mary Lou McCowin Crum, Kenneth Woods and Wanda Heck, while Martha Jane Trapnell achieved second place three years ago.

Of course, James Nesbitt, driving instructor at East Palestine, co-operating auto agencies and the school administration—backing an effective driver training program—deserve considerable credit, and symbolize the sacrifice, service and support given all such school driver courses.

## The Once Over

A letter to Joe Louis, former heavyweight champ of the world:

Dear Joe: Few folks really believed you liked the position of being in the corner of Fidel Castro, vilifier of the U.S.A., and it was good to see you kayo the original tie-in. You would have big appeal to anybody promoting tourist trade as your whole ring career showed you a wonderful agent for swift and dazzling travel.

I saw you send men from a prize ring in the Bronx to the Canary Islands and remember the night you sent a tourist from a Bronx ring to Berlin, with almost no effort.

The best travel slogan of the times seemed to be, "Meet Joe Louis and see the dream-lands of the world!"

Millions saw you promote long distance travel this way and if anybody wanted to go far away fast you could guarantee no waiting and take care of it in the ring without any vacation folder.

As a matter of fact, you sent men to outer space before scientists began to do it. Putting guys in orbit was a wrist motion, and you always did it under the rules of sportsmanship, which is why your friends were sure you would not go through with any helpful hand for Castro, a specialist in spitting on the American flag.

You have a big heart, and it naturally goes out to the Cuban people. But it can't go out to Fidel who is an unfair fighter specializing in low punches of which you have been a life-long foe. It is swell to know you realize that not many vacationists could relax with a fellow who abuses Democratic processes, enjoy

a suntan while their ears were split by denunciations of America or like tropical scenery amid cries of "Yank, go home!"

I see you were advised by the Missus but my hunch is that always a fair fighter who scorned rabbit punches and head-butts, you got out of Fidel's corner on your own capacity for straight thinking.

All good wishes,  
Joe Fightphann

We like Mort Sahl's crack about Sen. Kennedy's dad asking: "What do you want to be?" getting the reply: "I want to be president." and receiving the reply: "I mean when you grow up."

Why shouldn't actors get pensions even as war veterans do? Their whole lives are a battle with critics. Ballplayers get pensions too, and certainly actors and actresses are not only in more perilous work but must bat without helmets. If a ballplayer strikes out it's just routine but if an actor strikes out it can mean his job. And bear in mind that if a baseball club gets bad reviews the management can't post a closing notice.

## Reverse Side Of The Coin

## 611 Labor Law Probes Launched

By Victor Riesel

It was a gala moment here in Washington the other day when the Hod Carriers and Common Laborers Union president, Joseph V. Moreschi, enthusiastically dedicated the new eight-story, special Indiana limestone bronze spandrelled Joseph V. Moreschi headquarters building.

Many prominent men though an honor well deserved by the Common Laborers chief now in his 70s.

Moreschi has labored long in the vineyard — 34 years as unchallenged president — and is reaping merely \$30,000 a year in salary, \$9,000 in allowances and \$10,666.75 in reimbursable expenses.

All the books balance at the national headquarters. What troubled some observers, however, are the union's outlying baronies.

There is Local 404 in Brooklyn, N.Y., for example, which had as its president a crime syndicate hood by the name of Vincent Rao who ranked as a powerful delegate to the combine's convention in Apalachin, N.Y.

**WHEN THIS SCANDAL** broke, word came swiftly from the national Hod Carriers that an investigation would soon determine just how all this could happen.

If there was such a probe, it has been lost to the archives of progress. The federal and state authorities are in on it now.

When their findings are released, here will be chagrin and a keen sense of persecution in the new limestone tower.

Before these officials feel set up, they might give a thought to the rank-and-file. These leaders and their colleagues in other unions might look about and see what's developed since the McClellan committee tightened its belt and the U.S. Department of Labor, under James Mitchell, took over enforcement of workers' rights and dignity as it says it should under the Labor and Management Reporting and Disclosure Act.

If there is any sensitivity in the upper echelons on the higher floors of some unions, they will react to these Landrum-Griffin law reports, which have not yet been in the public prints.

There are now 611 active investigations of depredations inside labor. Probing these are the FBI and the Bureau of Labor-Management Reports compliance division.

Of these cases, 53 involve embezzlement.

There are 29 charges of violence.

The officer-conduct provisions appear to have been violated 28 times.

This means that 28 officials in a number of unions may not have reported that they had been in jail in the past five years.

There also are 10 alleged violations of the officer-Communist provision — meaning that these 10 may have been members of the Communist party in the past five years—or still are.

**ADD TO THIS** substantial evidence of 85 fiduciary violations by officials. This says that the officials involved did not treat union funds as other people's money, as a bank official, for example, would treat deposits.

Apparently money is not the root of all evil in the local unions being probed. There have been 83 possible violations of the bill of rights section of the law.

This section gives the rank-and-file members the right to speak up and vote as they wish without get-

ting slugged, threatened or expelled.

As for that apparently abstract theory that all elections should be free and open, there have been 113 charges of local election violations sufficiently important to warrant a federal probe.

Perhaps the local indiscretions will not embarrass the national leadership. But what of the seven alleged violations of national elections in that number of coast-to-coast unions?

It is fine to build bright new labor temples. But what of those who desecrate the principles for which they stand — allegedly?

Every individual has his pet table of turning points. Spring is over when the sheep are sheared. Summer is over when school begins. Christmas is over when the Christmas tree is dragged outside. Spring is now over. The sheep are sheared and ashamed again.

Is it not fascinating how skillfully so many people would have handled the U2 incident if they had been given two weeks' hindsight to figure out the angles?

The most discouraging thing I encounter in political discussion is a vacuum of understanding about the way the two-party system must work if it is going to work at all; namely, the give and take of free-swinging attack and counterattack.

One of the odd-ball effects of inclement weather, according to a friend who knows what goes on in truck gardening, is a slump in radishes. Seems they're dependent on a brisk demand for picnics and backyard eating, both slowed down when the temperature is low and precipitation high.

It is my judgment that baseball cannot afford to have players throw temper tantrums for any reason, even when it's Jimmy Piersall's much publicized nervous condition. Too many kids watching.

It is time to renew my resolution based on previous experience in national election years: Do not argue. Let the other fellow have his say and keep your mouth shut. He won't change your mind, and you won't change his, but if he thinks it's fun to try, hear him out.

If what steady users of airline service say when they swap experiences is true, airlines had better set up a continuing study to keep track of passenger grievances, before the airing of the grievances hurts their prospects.

This is the score as the law rolls into its ninth month. Enforcing it is a stupendous job. There have been 89,161 reports of all types filed with Mr. Mitchell's Labor Department. It is a measure of the task that the Department has dispatched 25,000 letters to unions seeking clarification of these reports.

It is fine to build bright new labor temples. But what of those who desecrate the principles for which they stand — allegedly?

## Communist Victories

By David Lawrence

### U.S. Losing In Cold War 'Skirmishes'

The Communists are winning victory after victory, while the West seems to be retreating. The Communists have forced a crisis in Japan and are intent on preventing President Eisenhower from visiting there.

Success in keeping Mr. Eisenhower from going to Tokyo will be followed by intensified efforts also to keep him out of the Philippines and Korea.

Thus, the propaganda battle to hurt the standing of the United States in the Far East goes on even as the Communists have virtually seized control of the government of Cuba—right at the doorstep of the United States.

The invasion of Cuba is the first step toward further take overs in Latin America.

Without firing a shot, the Communists are making headway in countries hitherto regarded as the military frontiers of the West.

Already in America there are suggestions that President Eisenhower had better not go to the Far East.

This is exactly what the Communists want to see happen. An American President, officially invited to visit Allied countries, would then appear, in effect, to be forbidden by Communist activity from carrying out his mission. The adverse effect of such a happening would, from a propaganda standpoint, be a serious blow to American prestige throughout the world.

**MUCH OF THIS** decline has happened within the last two months.

Korea has become weaker. Turkey has had a serious internal upset.

Japan is torn by strife, with the Communists demonstrating openly against the government because it signed a security treaty permitting the United States to have a base there to fight Communist aggression.

All this has a military significance. Thus, by suspending U2 flights, the United States has lost an important auxiliary activity.

Not only can weather information no longer be obtained by flying at high altitudes over the Soviet Union but also a vital means of detecting preparations for a surprise attack has been subtracted.

Official Washington, too, presents a sorry picture.

The Senate Foreign Relations Committee has been meddling in the operation of foreign policy, which is not its constitutional function.

Some curious statements, moreover, have been made by some of its members about the U2 episode.

One of the most fantastic is the suggestion that the high officials of our government should have publicly lied throughout on the U2 flights or should have said nothing at all.

But the same members of Congress who offer this hindsight would have been the first to demand testimony from high officials as to what exactly did happen. If the high officials didn't tell the truth to the committee, they would have been guilty of perjury.

**IF THEY REFUSED** to discuss it at all, the facts would have been obtained by the committee from lesser officials and the press would have been printing it day after day until confirmation had been obtained.

Under the circumstances, the administration had no choice but to tell the truth about the affair as soon as it became definitely established that Francis Powers had been captured and was alive. For it was immediately recognized that he would have been pressured into revealing enough facts to convict the American government of telling untruths if it had decided to pursue a policy of evasion.

So long as congressional committees and their chairmen insist on the right of public inquiry and the politicians urge such a course, no administration can afford to suppress the essential facts about any controversy, no matter how delicate a situation may be created in international relations.

A showdown seems to be approaching.

How long can the United States continue to appear in retreat? How long can U2 flights be suspended while the Soviets carry on espionage and an infiltration that weakens America's military position against the Communists?

**A TEST** may come in Cuba. Nikita Khrushchev is going there soon.

If President Eisenhower is kept from visiting Japan, then the Soviet Premier should be discouraged from visiting Cuba. There are plenty of Cuban citizens who can do the "discouraging" if they are sure the American government has a policy looking in that direction.

But even broader measures are necessary. A crackdown on Communists in every Western country would seem to be needed.

This can be brought about more readily if diplomatic relations between the United States and the gangster regime in Moscow are cut off.

This would stop the influx of Communist agents into the United States and it would be a signal to Latin American countries to take similar measures.

If the West seems to the rest of the world to be showing the white feather while the Soviets are infiltrating or invading the countries allied to the West, it is only a question of time when America's military position will be correspondingly weakened and the United States will have to spend many more billions for a "Fortress America" policy of unwanted isolation.

## Upside Down Politics

By James Marlow

**WASHINGTON** Gov. Nelson A. Rockefeller is not going by the rule books of professional politicians in looking for the Republican presidential nomination.

The New York governor seems to be playing politics upside down. But if you examine his problem his latest move Wednesday makes sense. It was a biting criticism of both Vice President Richard M. Nixon and the Eisenhower administration.

Up until last Dec. 26 Rockefeller was in the race against his only rival, Nixon, who had the Republican pros so solidly lined up on his side that the governor finally quit and said he was out of the race.

Then he got back into it May 25 by saying he'd accept a draft for the nomination if the Republicans wanted him. By this time Nixon seemed so far out in front that even Rockefeller conceded he didn't have much chance.

From a professional view those months — between Dec. 26 and May 25—might have been used by Rockefeller to try to line up support. Instead, he left the field free to Nixon who did the lining up for himself.

Rockefeller said he wouldn't encourage anyone to campaign for him. Nevertheless, if you go back over those lost months you might get the impression Rockefeller had been campaigning for himself.

For this reason: He kept talking out on issues facing the country. He kept himself in the public eye. He himself would probably explain, as he did Wednesday, he was just trying to encourage public discussion.

All this time he had never once said he endorsed Nixon for the nomination. And any praise he gave the vice president was faint praise. This kept the Republicans edgy.

If Nixon got the nomination and Rockefeller didn't campaign for him, Republican chances of carrying New York next November would diminish painfully. And the Republicans badly need New York.

Wednesday Rockefeller threw away his leather guster and hit Nixon between the eyes for the

first time with this: He criticized him for deciding not to talk out on the main issues before he gets the nomination.

If by this Rockefeller thought he'd needle Nixon into sticking his neck out, he failed. The vice president's associates said he wouldn't do any major speech-making until after the Republican nominating convention in July.

This is understandable, from a politician's view. If Nixon were to come up with new programs before he gets the nomination, he would appear to be criticizing the Eisenhower administration.

After his nomination any programs he offered different from Eisenhower's could be accepted as natural since he'd have to have something of his own to offer. And Eisenhower himself has suggested Nixon should have some ideas of his own.

Rockefeller Wednesday talked on a number of problems facing this country. Most of them he had talked about before.

Still, just by wrapping them up in one bundle and getting a little harsher than before, Rockefeller managed to criticize the Eisenhower administration for what he considers some failures. For instance, an inadequate national defense.

The world's largest meteorite quantities are used in the U. S. crater was discovered in northwestern Quebec in 1950. An expedition in 1951 reported it to be more than two miles wide, a quarter of a mile deep, and 3,000 to 15,000 years old.

## Fall On Street Injures Man

A city man, injured in a fall downtown Wednesday night, was admitted to City Hospital where four youngsters were treated and released following separate mishaps yesterday.

Perry Gloss, 67, of 300 E. 2nd St. is in "fair" condition today with abrasions of the cheek, mouth and shoulder received in a fall at E. 5th and Walnut Sts.

He told police he became ill suddenly.

Jerome Sanders, 8, son of Mr. and Mrs. Jerome Sanders, 1014 Bradshaw Ave., was treated last night for a cut of the left eye-

lid received in a fall from a bicycle.

Gerald Hays, 11, son of Mr. and Mrs. Wilson Hays of Hammondsville, suffered a cut of the right cheek in a fall on a toy gun at a neighbor's home.

Stephanie Firestone, 2, daughter of Mr. and Mrs. Edwin Firestone, 2245 St. Clair Ave., was treated for a sprain of the left arm received in a fall from a kitchen stool.

Lester Smalley, 13, of Morgan town, was treated for a fish hook wound.

Johannesburg, South Africa, is a favorite stopping point for penquins moving from the South Pole to European zoos. There they pause for a refreshing, cool water bath.

## Traffic

(Continued from Page One)

Mrs. Doris Hawkins, 29, of Leetonia R. D. 1 and her daughter, Susan Kay, 1, were treated by a Columbian physician yesterday afternoon after her car was rammed from behind by a tractor-trailer truck on Route 7 about 2 miles north of Rogers.

Mrs. Hawkins had slowed to make a left turn when her car was struck by a rig driven by Bryon Johnston, 25, of New Brighton. She suffered bruises of the back and her daughter received a cut of the scalp. The crash demolished her 1953 sedan, the patrol reported.

Johnston was charged with failure to stop in the assured clear distance.

The patrol was investigating a report of the mishap about 8 on a county road near Clewell's Landing at Guilford Lake this morning. Officers said some Canton residents went to the Aultman Hospital at Canton for treatment, but were to return to give an accident report later today.

## Industry Crash Causes \$700 Damage To Cars

About \$750 damage resulted to two cars involved in a collision in Ohio View, Industry Borough, Wednesday about 9:30 p. m. when one hit the rear of another stopped on Route 68.

Police Chief E. J. Hineman of Industry said the car of H. Melvin Black of New Castle developed motor trouble and stopped. David Campbell of Industry R. D. 1 did not see it in time, and ran into it, Hineman said.

Campbell suffered a knee bump and Black received bruises. Neither required treatment. The Campbell car received about \$250 damage and Black's \$500, Hineman said.

## Youth Given Leniency In Lake Marwin Theft

Guy Junior Patton, 19, of Wolf Run Rd., Industry, was given a 30-day suspended County Jail sentence when he switched his plea to guilty Wednesday afternoon in Municipal Court on a charge he stole a wallet containing \$1 which had been "planted" at Lake Marwin to break up a string of petty thefts.

Judge Samuel M. Chertoff allowed the suspended sentence on a promise of future good behavior. The youth had pleaded not guilty at arraignment yesterday morning after his arrest near midnight Tuesday.

Authorities said the "planted" wallet had been dusted with a powder which is invisible until it comes into contact with moisture such as perspiration. Then it turns a vivid purple. Patton's hands and T-shirt bore purple stains when he appeared before the judge yesterday.

## City Officials Inspect Columbian Park 'Pond'

Safety-Service Director Lee Copenhaver, Dr. E. G. Kuhlman, city health commissioner, and Septimus Cook, sanitary inspector for the Board of Health, went to Columbian Park this morning to inspect an allegedly stagnant pond of water on complaints raised by councilmen.

Council enacted a motion Monday night asking the director to confer on the question with the Health Board and Solicitor Joseph W. Cooper and take steps to eliminate the problem, including "legal action, if necessary."

On two or three occasions in the past, street department workers have taken gasoline-powered portable pumps to the site to pump out the pond, allowing the water to run through fire hoses onto Pennsylvania Ave. and then empty into storm sewers.

## Police Asked To Seek Youth, LaCroft Woman

Missing person reports were filed with police Wednesday in connection with the disappearance of a LaCroft woman and a 14-year-old East End youth.

Mrs. Evelyn Mae White, 21, of Densmore Ave. has been missing since 10 a. m. Tuesday, her husband, Lester White, reported to police at 8:50 last night. She is 5 feet, weighs 110 and has black hair and brown eyes, he said. She was dressed in a waitress' white uniform with white shoes, he added.

Michael L. Spencer, 1070 Maple-tree St., has been missing since Sunday at 5 p. m., the father, James Spencer, told police at 1:30 p. m. yesterday. The boy is 5 feet, weighs 127 and has black hair and brown eyes, he reported.

## Blackout Cited By Defendant In City Mishap

A Chester man facing a reckless driving charge after a collision May 1 at E. 3rd St. and Broadway in which two parked cars were damaged pleaded guilty today before Municipal Judge Samuel M. Chertoff, but blamed a momentary "blackout" for his loss of control.

Judge Chertoff imposed a fine of \$25 and costs on Orville Evans, 48, of 176 Carolina Ave., but suspended the fine on payment of the \$6 costs. Evans told the judge he remembers incidents just before and after the collision, but does not recall the crash.

His hearing had been delayed because Evans was hospitalized after the crash. Police said his auto hit a parked car owned by Ernest Bates of Garner Ave. and shoved it into another parked auto owned by Glenn Seever of Plutus Ave., Chester.

Judge Chertoff told Evans he should have a physical examination "for your own protection if you expect to continue to operate a car." The defendant told the court he had not experienced such a "blackout" since childhood.

Three other motorists faced the judge today.

Harold Brooks, 263 W. 9th St., was fined \$15 and costs and given a 10-day suspension of his driver's license on a charge of speeding 80 miles an hour in a 60-mile zone on the East Liverpool-Wellsville Rd. He was cited Sunday by the State Highway Patrol.

John Holland, 1790 Pennsylvania Ave., was fined \$10 and costs and given a suspended 10-day term in the County Jail when he pleaded guilty to operating an auto without a driver's license. Police said Holland attempted unsuccessfully to give the wheel to his wife — who is a licensed driver — when a cruiser overtook their car at 2:39 this morning at Pennsylvania Ave. and Boyce St.

Questioned by the court, Holland said he held a driver's license five years ago when he resided in North Carolina, but has been unable to pass the Ohio operator's test. The judge warned the jail term will be imposed if Holland is nabbed again for a similar offense.

Mrs. Ruby Wilson, 935 Phoenix Ave., Chester, was fined \$10 and costs on a charge of improper registration. The fine was suspended on payment of costs. Police said she was cited on W. 5th St. Monday at 3:50 p. m. Records showed she had obtained an Ohio 10-day license tag for an auto which she purchased from an East Liverpool dealer, but it expired the day before she was cited.

abroad and producing publications which he said contained propaganda. The article said the committee treated the testimony on each occasion as new and revealing.

The article said "at the time Fishman was performing these tasks for the committee, he was also receiving his regular salary as an official of the U. S. Customs Bureau."

The article said that when staff director Richard Arens was asked about Fishman's testimony he replied: "This is not a repetition. We are not putting on a show like a juggler."

In another copyrighted article by the same reporters the Knight newspapers said some of the most unusual expense account practices in Congress were attributed to the House delegation to the NATO parliamentary conference. The group has a \$15,000 annual budget.

The article said some of these funds were used for 47 one-way air trips and five automobile trips taken by Rep. Wayne Hays (D-Ohio) between Washington and his Flushing, Ohio, home or to Pittsburgh and Wheeling, W. Va., the nearest air terminals to it. Hays, head of the House NATO group, said these trips were to make speeches about NATO or conduct other NATO business.

## Board Adopts Final Budget Of \$484,858

The Western Beaver County Board of Education has approved a final budget of \$484,858. It raised millage on property 3 mills, added a 5 mill wage tax and left two other taxes unchanged at its meeting Monday.

The final budget is \$4,300 higher than the tentative budget adopted May 2 due to increases in wages to teachers. The budget is \$42,300 higher than last year's.

In action for more revenue to support the new budget, the board raised the property tax from 17 to 20 mills, passed a resolution to impose a new 5-mill wage tax and continued both the \$2 a month trailer tax and \$12 annual per capita tax.

The board approved a salary schedule for all professional employees at a starting rate of \$4,000 and maximum for those with standard certificates, \$5,400, with a bachelor degree, \$5,800, and with a master's degree, \$6,200.

All teachers, except those on maximum salary now, are to receive \$200 above the state mandated salary for the school year 1960-1961, Frank Meredith, supervising principal, said.

The board authorized James P. McClaskey, president, and Mrs. Evelyn Perine, secretary, to negotiate a \$15,000 loan with the Beaver Trust Co. Midland branch, until the balance of state appropriations are received by the district.

The Midland branch was appointed depository and treasurer for the district for 1960-61.

The board accepted resignations of three teachers, Miss Anna May Steeves of the fifth grade and Mrs. Burdell Blackmore of the second grade, both at Fairview School, and Mrs. Charles Hastings of the seventh and eighth grades at the Ray W. Snyder School.

John Flasco, transportation committee chairman, reported that his committee toured secondary roads in the district Saturday. His report indicated that roads are in satisfactory condition except for a bridge on Bealers Run Rd. which the county is supposed to take care of this summer.

Bills of \$22,043.69 were ordered paid. The board met in the Snyder School and McClaskey presided. Next meeting will be July 11.

## \$3,501 Spent By Byers For Sheriff's Bid

R. A. (Bert) Byers of Weirton spent \$3,501.10 in an unsuccessful bid for the Democratic nomination for Hancock County sheriff, according to primary financial statements filed at the Courthouse in New Cumberland.

Today is the deadline for all candidates in the May 10 primary to file their after-primary financial statements, the County Clerk's office warned.

Failure to file is an offense punishable by fine or a jail sentence up to one year or both. County clerks and the secretary of state are required to certify to prosecuting attorneys the names of candidates who fail to make the statements.

The office in New Cumberland pointed out that the requirement applies to all candidates whether or not they were successful in the primary.

Fifty-four candidates had filed expense statements by late Wednesday afternoon. A number of others were scheduled to be filed today in the office of Clerk Donald Stewart.

Byers, defeated by Joseph H. Manypenny of New Cumberland for the Democratic nomination, listed \$999.10 before primary expenses and \$2,502.00 after the primary. He also listed receipts of \$250. Byers listed expenditures of \$1,000 to a Chester man for use of automobiles hired to deliver voters to the polls, \$624 to a Weirton man for the same purpose and \$878 to pay 20 drivers and workers \$50 per car and 10 gallons of gasoline for each auto.

Michael R. Miller, son of the Rev. and Mrs. M. Rudolph Miller, was ordained into the ministry of the United Presbyterian Church at a ceremony Wednesday night in the chapel of the Trinity Church, of which his father is pastor. Approximately 350 attended and included guests from Chambersburg, Pa., Pittsburgh, Columbus and South Dakota.

Ministers of the Steubenville Presbytery conducted the traditional examination of the candidate and a public reception followed the ceremony. The committee on Christian education of the Presbytery met at 3:30 p. m. in the chapel for the purpose of examining the candidate's fitness for the ministry.

The Rev. Robert Geyer of Mingo Junction, moderator of the Presbytery, was in charge.

The ordination service began at 8 and the Rev. Charles T. Brewster, pastor of the Congregational Church of Yankton, S. D., father-in-law of the candidate, gave the ordination sermon.

Rev. Geyer proposed the ordination questions and the Rev. George Jenkins of Carrollton, general presbyter, gave the ordination prayer. Rev. Miller gave the charge to his son.

The prayer of adoration was offered by the Rev. Frank E. Hare of New Lebanon, stated clerk of the Presbytery, and the Scriptures were read by the Rev. Robert T. Tanguy of the Glenmoor church.

Howard R. Martin, chairman of the worship committee of the Church Session, presented a Bible to the new minister and Mrs. Bayard W. Hunsicker, president of the Church Service Guild, presented the vestment.

The reception was held in the

social rooms with the Service Guild in charge.

The receiving line was headed by the new minister and his wife, his parents and his father-in-law.

### Repair Slated For W. 9th St.

Sikora Brothers Excavating Co. of Poland, contractor for relocation of the Carpenters Run sanitary sewer, is scheduled to begin work next week on resurfacing of the W. 9th St. pavement which was torn up between Chestnut St. and Claiborne St. as part of the project.

The contractor is scheduled to restore the W. 9th St. paving with concrete and blacktop. The street was torn up for installation of the new sewer. The work now has moved to a point north of W. 9th on Claiborne, clearing the way for the resurfacing.

Meanwhile, city crews are continuing work today on raising 10 manholes along E. 3rd St. as an aftermath of the blacktop resurfacing of the stretch that was completed late Tuesday night by Edgar Spring, Inc., of New Philadelphia under a contract with the State Highway Department.

In some projects, the manhole covers are raised to the new level before resurfacing and in other cases the manholes are raised after the new surface has been applied.

The contractor's crew marked each manhole which it covered with the blacktop. The city crews will raise the manhole covers and set them in place with concrete. Until the concrete cures, the spots will be marked with barricades and lights to warn motorists.

## Atomic 'Flop' Seen Remote For Bomarc

By DONALD F. BILLES  
MCGUIRE AIR FORCE BASE, N.J. (AP)—The commander of the nation's first Bomarc missile base says the chances of his weapons ever causing an atomic mishap are "very remote, indeed."

"These Bomarc are more fool-proof than soap," Brig. Gen. Gilbert L. Pritchard told a news conference Wednesday night.

Pritchard, commander of the New York Air Defense Sector, told the meeting the Air Force assumed responsibility for Tuesday's radiation scare and the subsequent liaison breakdown between the service and state civil defense officials.

He said the safety device in a Bomarc's nuclear warhead made the likelihood of a fire's causing an atomic explosion extremely slight.

Nonetheless, he added, "special precautions," which he would not describe, were now being taken at the nation's two Bomarc aircraft missile sites here and in Suffolk County, N.Y.

A needle-nosed Bomarc caught fire Tuesday at its launching site 12 miles east of here in a sparsely populated wooded area.

Pritchard said an Air Force sergeant phoned State Police to ask them to block off roads leading into the area.

"I am sure the sergeant either implied or stated there had been a nuclear explosion," Pritchard said.

He said the sergeant, Clarence Baldwin of the Air Force Police, "doesn't remember what he told State Police."

Pritchard said the fire was ignited by an explosion somewhere within the missile, closed in its concrete launching pen. A second explosion caused an evacuation of the immediate area.

Pritchard then accompanied firemen into the pen and determined nothing nuclear had detonated.

No one had been injured, but the Bomarc, which costs between one million dollars and \$1,200,000, was destroyed.

Pritchard said an eight-man board representing the Atomic Energy Commission, the Boeing Aircraft Co., which makes the missile, his own staff, the Air Research and Development Command and the inspector general of the Air Force would investigate the fire.

## ANSWERS YOUR PROBLEMS

Dear Readers: Several weeks ago a letter appeared in this space asking what I thought about a newborn baby who had blue eyes when both the parents had very dark brown eyes.

I suggested that the reader write to me in about six weeks because ALL newborn babies have eyes that appear to be blue.

I did not mean to imply that if the baby's eyes didn't turn brown something was amiss. Many readers apparently got this impression, however, and the results have been devastating.

I've received an avalanche of letters from blue-eyed, brown-eyed, green-eyed and gray-eyed readers—all wild-eyed. They have informed me in singularly emphatic tones that their eyes are not the color of either parent but nothing is fishy in their family.

I wish to make it clear that although the odds are against two brown-eyed people's producing a blue-eyed baby, it CAN and DOES happen in the very best of families.

—ANN LANDERS.

### Mama's Boy At 52

Dear Ann Landers: Two years ago I met an interesting man who is now 52 and never has married. He lives with his parents who are in their 70s.

I have three children, all grown, and I am divorced. His mother will not invite me to their home so we have never met. Both his parents are dead set against his marrying me. They are trying to push him into a marriage with a 32-year-old family friend whom he has dated (platonically) for 12 years.

I think it's time we got married or called it quits. He says his folks will never accept me and has suggested that we wait until they die.

We are deeply in love and I know I could make him a very good wife. He says if I loved him I'd be willing to wait. What is your advice?—DIM VIEW.

### Pay Increase Urged For Railroad Workers

WASHINGTON — A presidential emergency board Wednesday recommended a five-cent hourly wage increase for 650,000 railroad workers who have threatened strikes against almost every American railroad.

The wage rise should take effect July 1, the board advised President Eisenhower. It recommended also that the parties negotiate a "number of improvements" in the rail industry's health and welfare program.

The latter benefits, the board said, should take the place of a further general wage increase when contracts with 11 railway labor organizations expire early next year.

### Theater Manager Held In Obscene Film Case

CLEVELAND (AP)—Nico Jacobellis, 37, manager of the Heights Art Theater, was being held in Cuyahoga County Jail today, pending preparation of a probation report. A panel of three judges Wednesday found Jacobellis guilty of possessing and exhibiting a film which they unanimously ruled obscene, lewd and lascivious.

The film was the controversial French motion picture, "The Lovers." Jacobellis' attorney, Bennett Kleinman, said the case would be appealed to the U.S. Supreme Court "if necessary."

### Auto Kills Youth, Hurts Another As They Pushed Car

PIQUA, Ohio (AP)—One Piqua youth was killed and one critically hurt when they were struck by a car as they pushed an out-of-gas auto Wednesday night. The accident, on new U.S. 25 (Interstate 75) about five miles south of here, claimed the life of Charles David Harvey, 17.

Ricky Carr, 17, was in critical condition at Dettmar Hospital in Troy.

According to Miami County deputies, the two boys were shoving a car driven by Richard Foster, 18. He and they were on their way home from Dayton when the car ran out of gas. An auto driven by Thomas Charles Post, 28, of Celina, hit them from behind and rammed the rear of Foster's vehicle.

Post and a passenger were not seriously injured, and Post was not charged with any violation.

New York City has the greatest number of licensed taxicabs, followed by Washington, Chicago, Philadelphia and New Orleans.

## Pinball 'Show' Given In Court In Bribery Trial

NEW PHILADELPHIA, Ohio (AP) — A pinball demonstration was given in Tuscarawas County Common Pleas Court Wednesday at the bribery trial of George Markos.

The demonstration, permitted over objections of defense attorneys, was conducted in an attempt

by the state to show that the machine was a gambling device.

Attorneys for Markos objected to the machine being demonstrated and described before being introduced or accepted as evidence.

Markos, owner of the Dover Novelty Co., is one of five persons indicted on seven counts of offering bribes to Dover Mayor Clifford C. Froelich. The mayor was indicted on a charge of accepting bribes.

Robert S. Blackburn, investigator for the state attorney general, demonstrated the pinball machine,

one of 31 taken in a raid at the Dover Novelty Co. last Feb. 10.

## Victim Identified

## Last Of 'Terrible' Touhy Brothers Dead In Chicago

CHICAGO (AP) — The last of 'The Terrible' Touhy brothers is dead.

Thomas (Terrible Tommy) Touhy succumbed to cancer without realizing his hope to avenge the death of his brother—Roger 'The Terrible' who was gunned down by assassins Dec. 16.

The Sun-Times disclosed his death today. The paper says he died May 16 at the home of relatives.

Tommy had been quoted as saying in the past:

"I don't want to end up full of bullet holes in the street. I want to die in bed with my family around me."

He died in bed but there were no brothers around him.

Roger was shot to death 23 days after leaving prison.

Two other brothers were killed during the Capone era gang wars. Another died in prison of tuberculosis. James, who ran a roadhouse, died of natural causes.

Tommy, released from prison in 1947 after serving 11 years for a \$78,000 mail robbery, had said that "Rog got the blame for a lot of things I did. He even got my nickname, 'The Terrible,' pinned on him. He didn't deserve it. He was just a bootlegger."

Kathleen is the Celtic name for "lovely eyes."

# Held Moves Indians Past Orioles Into League Lead

By ED WILKS  
Associated Press Sports Writer  
Cleveland has barged past Baltimore into the American League lead, and Woody Held, the low-average batter, has been the Indians' hatchman.

The power-packed shortstop, batting .257 and bunched in an 0-for-15 slump 10 days ago, drove in six runs and brought home the clincher in both games for an 8-7 and 5-2 two-night sweep at Boston Wednesday night.

That made it four in a row and nine out of 12 for the Indians, who moved ahead of Baltimore by 10 percentage points. Detroit and Charlie Maxwell spanked the Baby Birds for the second night in a row, 2-0, in a double three-hit

## Tribe Downs Boston Twice

duel between Tiger Frank Lary and Jack Fisher.

The New York Yankees smacked four home runs behind Bob Turley's three-hit pitching and beat Chicago 6-0, moving within a half-game of the third place White Sox. Washington defeated Kansas City 8-6.

In the National League, Pittsburgh beat the Chicago Cubs 5-3 and kept a one-game edge over second place San Francisco. The Giants defeated Cincinnati 2-1. Los Angeles cooled off third place

Milwaukee 4-1. Philadelphia beat St. Louis 5-3.

Cleveland made it 5-0 over last place Boston on Held's grand slam, his 11th home run, in the sixth-inning of the nightcap.

Gary Bell (4-4), who had lost three in a row, won the second game with a three-hitter, blanking the Red Sox on one hit until the seventh inning. Jim Perry (6-2) won his fifth in a row in the opener, although giving up

Pumpsie Green's first major league slam and solo homers by Ed Sadowski and Pete Runnels. Johnny Klippstein saved it with three innings of hitless relief. Reliever Mike Fornieles (2-1) lost the opener and Dave Hillman (0-2), who also gave up a home run by Jimmy Piersall, dropped the second game.

Three runs in the eighth, triggered by Julio Becquer's two-run single, did it for the Senators and winning reliever Don Lee (2-1). Trowbridge (1-2) was the loser in relief.

Ed Bresoud's two-out, two-run single did it for the Giants, who had been held to four hits for eight innings by loser Jim O'Toole (4-5). Cincinnati, hitless for 7 1-3 innings against Mike McCormick, scored on singles by Billy Martin and Eddie Kasko and catcher Bob Schmidt's throwing error. Jones (7-4) struck out Frank Robinson and Gus Bell to end the uprising.

A two-run double by pinch-hitter Tony Curry cracked a 3-3 tie in the fifth for the Phils, handing Lindy McDaniel (3-3) his first loss as a reliever. John Buzhardt (2-4) won it.

All the scoring came in the ninth at San Francisco, and all three

## Bucs, Giants Continue National Loop Battle

By ED WILKS  
Associated Press Sports Writer

Stan Williams, the big right-handed reminder of last year's pennant failure still is haunting those Milwaukee Braves.

It was Williams who beat the Braves with three innings of hitless relief in the final game of the playoff for the 1959 National League flag. And in his first run-in with Milwaukee since then, the 6-foot-4, 230-pounder beat the

Braves 4-1 Wednesday night, choking off their spurt toward the top with the help of a pair of two-run, eight-inning homers by Wally Moon and Duke Snider.

The third place Braves dropped 4½ games behind league-leading Pittsburgh again. The Pirates won 5-3 at Chicago and retained a one-game edge over second place San Francisco. The Giants, calling on Sam (Avalanche) Jones for the first time in relief this season, hung on with a 2-1 victory over Cincinnati.

Philadelphia defeated St. Louis 5-4.

In the American League, Cleveland swept a two-night pair at Bos-

ton, 8-7 and 5-2, and took over first place by 10 percentage points over Baltimore. The Orioles dropped to second with their second straight loss to Detroit, this one 2-0. The New York Yankees beat Chicago's White Sox 6-0 behind Bob Turley's three-hit pitching. Washington defeated Kansas City 8-6.

The Dodgers, blanked on five hits for seven innings by Carl Willey, tied St. Louis for fifth place as Moon unloaded against losing reliever Don McMahon (1-0) and Snider tagged Bob Rush.

Williams allowed just three hits, two by Wes Covington, before being lifted for a pinch-hitter in the eighth. He walked none and struck out seven giving up the run in the first inning on Billy Bruton's double and Ed Mathews' one-out sacrifice fly.

The Pirates beat the Cubs with Dick Stuart's two-run homer in the fifth. Wilmer (Vinegar Bend) Mizell (2-3) had a three-hit shut-out for six innings, then needed Elroy Face's superb relief to win. Bob Anderson (2-2) was the loser.

All the scoring came in the ninth at San Francisco, and all three

runs were unearned. Ed Bresoud's two-out, two-run single did it for the Giants, who had been held to four hits for eight innings by loser Jim O'Toole (4-5). Cincinnati, hitless for 7 1-3 innings against Mike McCormick, scored on singles by Billy Martin and Eddie Kasko and catcher Bob Schmidt's throwing error. Jones (7-4) struck out Frank Robinson and Gus Bell to end the uprising.

A two-run double by pinch-hitter Tony Curry cracked a 3-3 tie in the fifth for the Phils, handing Lindy McDaniel (3-3) his first loss as a reliever. John Buzhardt (2-4) won it.

## Pender Still Confident Of Beating Sugar

By JACK HAND  
Associated Press Sports Writer

BOSTON (AP) — Paul Pender talks with the ease and assurance of a man accustomed to public speaking. When he explains why he expects to beat Ray Robinson again Friday night he is a convincing orator.

Many thought it was a fluke when Pender beat Robinson Jan. 22 for the New York-Massachusetts version of the world middleweight title. Naturally, Pender does not agree. It was a split decision among the officials with a wide difference of opinion among boxing writers and television viewers.

"I'm going along with the idea of outpointing him again," said the 29-year-old former fireman from Brookline, Mass. "If the opportunity presents itself later when Robinson tires, I will go for the knockout."

"I expect to fight the same type of fight, feinting him into moves, tying him up and making him squander his energy in the early rounds. Anyone who fights Robinson like that gives him trouble. I'll shuffle with him just like Tommy Bell and Rocky Castellani did."

Although Pender still is a 2 to 1 underdog as the defending champ, he speaks with extreme confidence. His manager, Johnny Buckley, makes it even more definite.

"I honestly believe Paul will flatten him this time," said Buckley. "Robinson was dead in the last part of the last fight."

## Laughlins Win Lone LL Game

In only one Little League game played Wednesday, Homer Laughlin spilled Milliron's, 7-5.

Outhit 10-8, Homer Laughlin depended on the home run ball. Dan Flasco smacked a two-run homer in the second and Len Walker clubbed a roundtripper in the sixth frame. Marv Six went three-for-three for Laughlins.

Dan Standley was the winning pitcher. Ray Ammon, Tom Spooner and Rick Cunningham collected two hits each for the losers.

In one Minor League game played, Veteran Plate Glass handed Bergners a 20-16 setback.

Bisco was the winning pitcher and fanned six while giving up only two hits.

School Star Gets

Bonus From Phils

KEYSER, W. Va. (AP) — All-State football and basketball star Gary Lee Keady will report to the Appalachian League in Johnson City, Tenn., tomorrow after receiving a reported \$25,000 Philadelphia Phils bonus.

Keady joins Morgantown's Jim Ponceroff as the second West Virginia schoolboy star to sign for a bonus of that amount with the Phils this year. Ponceroff has been assigned to the Tampa, Fla., farm club, where he is playing in the Class D Florida State League.

Phil's' district scout Orve Bacha signed 18-year-old Keady immediately after he was graduated from Keyser High School. Keady led the Keyser team with a sizzling .548 average this season, which ended for his team when it was beaten by Moorefield in the Section 4 playoffs. In his four years of high school baseball, the 6-0, 180-lb. shortstop compiled an over-all .396 mark.

DEL BAKER, 68-year-old pennant-winning manager of the 1940 Detroit Tigers, (right) was named interim manager of the Boston Red Sox for an indefinite period, after Billy Jurgens was ordered to take a "complete rest." He is shown with his arm around Rudy York, coach, and yelling out to his players before the Red Sox dropped a doubleheader to the Cleveland Indians Wednesday night. (UPI Telephoto)

### Like A Jackrabbit

## Bally Ache Is Installed As Favorite At Belmont

By JOHN CHANDLER  
Associated Press Sports Writer

NEW YORK (AP) — Bally Ache, favorite for the \$125,000-added Belmont Stakes Saturday, is a colt who barges out of the gate like a jet-propelled jackrabbit. Then, it's catch him if you can.

He won the Preakness that way, also the Jersey Derby, the Flamingo and the Florida Derby — all \$100,000-plus races. Venetian Way did manage to thrust his nose in front momentarily in the Florida Derby, but Bally Ache came on again to win. He also led for almost a mile in the Kentucky Derby, before Venetian Way took charge.

Eight starters are expected for the Belmont. A front-running victory for Bally Ache would just about clinch the 3-year-old title for the turf and syndicate darling.

Nothing ran with Bally Ache to force him in the Preakness and jockey Bobby Ussery set his own slow poke pace.

Who will force the pace in the Belmont? It could be the Merrick Stable's John William, winner of the \$117,000 Withers Mile. The Cain Hoy Stable's Tooth And Nail is another colt who can make

tucky Derby, before Venetian Way took charge.

# Local Nine Extends Win Streak To 4 In County-City Loop

## Defeats Salem 10-To-3; Lawrenceville Beaten

East Liverpool continued its rapid pace in the County-City League by walking away with its fourth straight victory and remain as the loop's only undefeated team by handing Salem a 10-3 setback Wednesday at Patterson Field.

All six teams saw action Wednesday with Chippewa edging Lawrenceville, 12-10, at Midland while Negley nipped East Palestine, 9-8.

East Liverpool and Salem were locked into a tight duel for five innings, but an eight-run sixth inning broke the contest wide open. Dick Chamberlain, the veteran City League hurler, picked up the victory for the locals, but was relieved by Jimmy Miles in the fourth inning.

In four innings, Chamberlain gave up only one hit and fanned five. Salem's Meisner was the loser.

East Liverpool collected six hits while Salem could only come up with three off Chamberlain and Miles.

A double by Jim Prentice was the only extra base knock of the game and no East Liverpool player got more than one hit.

Chippewa's runs came in bunches in its victory over Lawrenceville. The visitors piled up five runs in the second inning, then broke a 5-5 tie in the sixth with more markers.

After Lawrenceville tied the count at 5-5 in the fourth, they tallied three more in the sixth and two in the seventh.

Don Shaw started and was the loser for Lawrenceville. Wildness hit the young right-hander as he gave up seven walks and six hits.

Lawrenceville out-hit Chippewa, 10-6 with home runs by Timmons, the big blast for the winners.

John Martin blasted a roundtripper to deep centerfield for Lawrenceville which was led at the plate by Gary Pugh, Shaw and Jim Owen with two hits apiece.

Ebbensberger picked up the victory for Chippewa in going the distance.

Sunday, Lawrenceville will play at Negley instead of Crucible Field as previously announced.

## Williams Draws Praise For Work Against Braves

LOS ANGELES (AP) — Six-foot-four Stan Williams, often wild on the pitcher's mound, drew praise today for the control he exercised in whipping the Milwaukee Braves.

It was a 2-run home run blast by Wally Moon that won the game, followed by another 2-run homer by Duke Snider that cinched the 4-1 win Wednesday night.

But it was 23-year-old Stan's work in limiting the Braves to three hits in eight innings which matched the Moon-Snider blows.

"That was the best game I ever saw him pitch," said Manager Walter Alston of his right-hander.

Before retiring for a pinch hitter in the eighth, Williams threw 91 pitches and reached a count of three balls on only one Brave. That was Bill Bruton in the third inning and he struck him out swinging.

## Yesterday's Stars

Hitting — Woody Held, Indians, drove in six runs with two singles and a grand-slam homer, bringing home the winner in each game of 8-7 and 5-2 sweep over Red Sox that put Indians in first place.

Pitching — Frank Lary, Tigers, knocked Orioles out of first place with three-hit, 2-0 victory, striking out seven and walking three.

Dickie Harris, business manager of the Wilson Tobaccoists in the Carolina League, is the son of Bucky Harris, Boston Red Sox general manager.

## Palmer, Wall Gain Attention In Oklahoma

OKLAHOMA CITY (AP) — Golf's foremost twosome — Arnold Palmer and Art Wall Jr. — commanded most of the attention as 138 professionals and 10 amateurs started the first round of the \$30,000 Oklahoma City Open today.

The field will battle Twin Hills Country Club's tight and tricky par 71 layout for four days with \$4,300 going to the winner Sunday evening.

Wall shot a brilliant 65-63-128 at Twin Hills Tuesday to lead 34 qualifiers for next week's National Open at Denver.

Ready if Wall or Palmer are former National Open champions Julius Boros, Lloyd Mangrum and Tommy Bolt, and former Masters champions Doug Ford and Jackie Burke Jr.

Others include young Bob Goalby who came on strong to finish two strokes behind Palmer last year, and Gene Littler.

## Machen Takes Easy Decision

By JERRY LISKA

Associated Press Sports Writer CHICAGO (AP)—Eddie Machen the No. 4 heavyweight contender, went through a lot of motion without much progress as he gained his 34th victory against two defeats Wednesday night.

Machen wanted to talk more about the June 20 title bout between Ingemar Johansson and Floyd Patterson than his own unanimous decision over elusive Alonzo Johnson in the Chicago Stadium.

The nationally-televised bout produced a lot of swinging and swaying, but nobody came close to being hurt.

"He just clinched a lot and was going away quite a bit," said Machen, who wrestled Johnson to the canvas five times but never could land a solid punch.

Referee Weissman called it for Machen 49-45, while the two judges Jim McManus and Bill Doty voted for Machen 47-45 and 47-44 respectively. The AP card had Machen ahead 49-42.

Machen, from Portland, Ore., weighed 195, and Johnson, from Rankin, Pa., was 189, for the bout which attracted 720 and a net gate of \$1,050.

Machen, who was knocked out by Johansson in the first round in 1958, said he hoped to get his next shot against Sonny Liston, No. 1 contender.

It was Johnson's sixth defeat against 18 victories.

The Boston Red Sox really were in a May slump. After losing nine straight American League games they bowed to their Minneapolis farm hands, 1-0, in an exhibition.

## No Comiskey In Sox Office

CHICAGO (AP) — There wasn't a Comiskey to be found today in the front office of the Chicago White Sox. That hasn't happened since the club was founded in 1901.

Charles A. (Chuck) Comiskey resigned as executive vice president of the American League ball club Wednesday. His letter expressed no bitterness, but wished Manager Al Lopez, the players and the club success.

Comiskey, who owns 46 per cent of the White Sox, will remain on the board of directors. He said he had no immediate plans, but added:

"I'm going to keep my stock. All I'm going to do right now is get out of the office for a while and spend some time with my family."

White Sox President Bill Veeck, leader of the group which bought majority control of the club from Comiskey's sister, Mrs. Dorothy Rigney, said: "It's a complete surprise to me."

"I have mixed emotions over learning this," Veeck continued. "I regret there no longer will be a Comiskey name in the front office of the White Sox, but if we

can't operate in complete harmony it may be just as well."

### Driver Gets Release

#### After Serving 40 Days

Thomas Lanam of W. 4th St., who had served 40 days on a fine and sentence for driving while under the influence of alcohol, was released from jail Wednesday by Municipal Judge Samuel M. Chertoff, but warned he must pay a \$145 balance on his fine in the next 4 months.

Judge Chertoff said Lanam was released partially for reasons of health. The motorist had been in jail since his arrest April 29. He served the five-day sentence imposed at the time, with the balance credited against his unpaid fine.

As other conditions of his release, Judge Chertoff said he must: Be of good behavior, obey all the laws of the city and state, refrain from drinking and stay out of places where intoxicants are sold, obtain employment and pay the balance of his fine in four months. A six-month suspension of his driver's license still is in effect, the court warned Lanam.

LISBON — Premium list books for the 115th Columbiana County Fair Aug. 23-27 now are at the printers and should be ready for distribution by July 15. Galen Greenisen, publicity chairman, said at a meeting of the Fair Board Tuesday night.

## Chertoff Predicts U.S. Controls For 'Problem' Drivers

A system of federal records may be set up some day to guard against the problem of a motorist who goes to another state to obtain a new driver's license after his operator's permit has been suspended by his home state for an offense such as drunken driving or manslaughter, Municipal Judge Samuel M. Chertoff predicted today.

The system of federal controls may be extended to other facets of the auto laws, but the problem is most pressing in the case of the suspended driver who now needs only to cross a state line to get another permit, the judge said.

He made the comments after noting that the House Commerce

Committee has voted in Washington to establish a national list of drivers who have lost their licenses for serious offenses.

Rep. John Rhodes of Arizona, who sponsored the measure, said most accidents are caused by "chronically unsafe drivers." He said the Secretary of Commerce could maintain a register of suspended drivers.

Judge Chertoff said he can foresee the day when some auto laws will be standard throughout the nation, as is the case today in the field of commercial law.

### Surplus Food Given

# Bringing Up A Family

By GARRY C. MEYERS

## Practice Solves Spelling Dilemma

Suppose your child, in the fourth, fifth or a higher grade, is a poor speller. On the papers he writes for his teacher many words may be marked as spelled wrong. He may have trouble in spelling the lists of words on which he is tested, or he may pass these tests well and still misspell many words in his written work. Suppose he does poorly on the tests of his list of words to spell. When he studies these words at home, encourage him to know the meaning of the word before learning to spell it. Then help him to learn to pronounce the word before naming the letters in it.

He might profit from some practice with you in seeing shorter words with like sounds. You might, for instance, help him see that some simpler familiar words sound alike or rhyme; or to see words together which start with the same sound.

YOUR NEXT step is to have him first look carefully at one word in his list, pronounce it and then name its letters in right order while looking carefully at this word. Repeat this whole performance two or three times.

Then have him write the word while looking at it and repeat its spelling while still looking at it.

The last step with this word is for him to spell it from memory. Put accuracy first. When he is not sure he can spell the word, he should always go back and see it. All this should be done before attacking the next word in the same way.

A good plan is to have each word of the list printed or typed on a card. Also, it's better to master the spelling of three or four words at a sitting than to mess over many of them.

Many a child who spells all the words on a test correctly may, in the next hour, day or week, spell some of these words wrong while using them to write about something.

IF HE IS doing written work at home, urge him to ask you to spell any word of which he is doubtful. Help him get a good spelling conscience, wishing never to spell a word wrong as he writes. Never, therefore, refuse to spell a word for him.

Sometimes you yourself might not be sure of the correct spelling. Then you should seek with him its correct spelling in the dictionary. In this companionable way you will help him choose by and by to use the dictionary when he should. Also, you might induce him to keep a notebook in which he spells correctly any words he misspelled on a test paper.

My bulletin "Home Helps for Poor Spellers" may be had by sending a self-addressed, stamped envelope to me in care of this newspaper.

## DiSalle Reveals Ohio Is Moving Along Quite Well

COLUMBUS, Ohio (AP)—"Ohio is moving along quite well with our future prospects exceptionally good," Gov. Michael V. DiSalle says of the state's economic picture.

Personal income in the first quarter of 1960 showed a six per cent increase over the first quarter of 1959, the governor said.

These and other data from the Ohio State University Bureau of Business Research fail to reflect the concern which he encountered during trips about Ohio, the governor said.

New passenger automobile registrations in 48 counties (reporting) were up 38 per cent in March from February, 10 per cent over March 1959 and 3 per cent in the first quarter of this year over the same quarter in 1959.

Agricultural income was up 3 per cent in the first quarter of 1960 compared with the same period in 1959. Farm income was up 14 per cent in March from February and 6 per cent over March 1959.

There was an adverse turn in seasonally adjusted construction figures, the governor said. The measurement was difficult, he added, because of an uncertainty over the effect of unseasonable weather during the first quarter of the year.

Value of construction contracts awarded was up 22 per cent in March over February but dropped 5 per cent below March of 1959 and 7 per cent below the first quarter of 1959 for the same period this year, he reported.

## Stevenson Denies He, Kennedy Will Combine Forces

CHICAGO (AP)—The Chicago Tribune said today Sen. John F. Kennedy of Massachusetts and Adlai E. Stevenson reportedly have agreed to combine forces for the presidential nomination.

Stevenson denied such an agreement was made.

The Tribune said the reported agreement includes these points: "1. Stevenson is to strive to keep his name out of the Los Angeles nominating convention July 11 for the first three ballots while Kennedy made his do-or-die effort."

"2. If Kennedy's all-out drive fails he is to throw whatever forces he can behind Stevenson for the presidential nomination."

"3. Kennedy would accept the vice presidential nomination if Stevenson gets the top spot for the third time."

Stevenson issued a statement that, "there was no discussion (with Kennedy) of our course of action either before or during the convention."

Mayor Richard Daley, who will lead the Illinois convention delegation, said he had not heard of such a deal.

The Tribune said the reported deal supposedly was made May 21 when Kennedy visited Stevenson in his Libertyville home for less than two hours.

## Keep In Trim

By IDA JEAN KAIN

### Slimming Club Needs Fresh Challenge

Something new needs to be added when a slimming club starts to bog down and lose its zip. The "something new" can be anything the members decide will serve to inject fresh enthusiasm and stimulate interest.

First to explain the problem given in a letter. "Last October a group of overweight women formed our own reducing club with nine members. The dues are a nickel a week. We've arranged the group into thirds according to amount of overweight. As a challenge, the non-losers ante-up for the winners in their group.

"Here's our progress to date. I have lost 20 pounds and another member has lost 24 pounds and so on from 15 pounds down to 5. No one has gained. We range in age from 23 years to the young 50s.

"ON THE FIRST meeting, we weighed in and measured per your charts. We weigh in each Monday night. We try to confine the talk to diet, but it seems to stray to rich recipes and talk about our children.

"Now, here is my problem. I more or less started the club and now I feel we are slipping and losing interest. Can you give us some tips to brighten or enliven our meetings. Is once a week too often to meet? One can gain a lot of weight in two weeks! We will be watching the paper for your suggestions."

All right. Let's try some mental gymnastics. First, set up a near goal. The 4th of July is three weeks away. Challenge each member to be six pounds lighter by that date. That will put them on their mettle.

Each one should subtract six pounds from her present weight, mark that weight down in large numbers on cardboard, complete with name. Each one should have that weight-date fixed firmly in mind, and plan to be that weight by July 5.

Set a goal on the measurements score: Measure your waist. Resolve to be one inch smaller around. To cinch-the-inch goal, sew snaps at the one-inch-less mark, then take daily stretch bends to lessen that middle measurement. Or perhaps it's another measurement that you would like to exercise slimmer. It is vitally important to have a definite goal, and to keep that goal in mind.

TO STIMULATE interest, the members should take turns acting

as chairman and planning the program. It is up to the chairman-for-the-week to make the program imaginative, sprightly, and challenging.

Competition and fresh ideas can keep the meetings exciting, and the members slimming down. Good luck!

Send a long, self-addressed stamped envelope for "Slimming Club" leaflet and "Take Your Measure." Address your request to Ida Jean Kain, in care of this newspaper.

### Wellsville Kiwanians Told Of Welfare Work

Welfare work in Columbiana County was outlined by Donald Hepp, county director, at a meeting of the Wellsville Kiwanis Club Tuesday night at Platt's Tea Room.

Hepp cited some of the case histories and told of his work among children. He also explained the operation of the new children's receiving home at East Palestine.

Hepp was introduced by County Auditor Kenneth Bell. Sixteen were present.

### 1,100 Expected For Boys State

ATHENS, Ohio (AP)—The 23rd annual Buckeye Boys State, the American Legion school in self-government, opens on Ohio University's campus today with an expected record enrollment of 1,100.

Selected juniors in high schools throughout the state register in the afternoon, being assigned to rooms in five dormitories designated as "counties" in the mythical "51st state". Tonight the boys will begin their orientation into ways of active citizenship.

Because of the big registration, a fifth county was added this year, named for William S. Konold of Columbus, one of the founders of the program in 1936. Each county includes four to six cities, for a total of 23.

On Friday, the boys begin holding caucuses and conventions. Hundreds will campaign for offices and judgeships before the polls open at 9:30 a.m. Sunday for the election. Successful candidates will be inaugurated Sunday night, and from Monday through Friday, June 17, the boys will run their own affairs. The state ends about noon Saturday, June 18.

In the presidential election of 1956 the Prohibition Party polled 41,937 votes.
